PROFESSIONAL SUMMARY

BCA (AI & ML) student and AI Software Developer Intern who built and deployed a production-grade, full-stack AI Recruitment Portal using Python, FastAPI, React.js, and MySQL. Strong in REST API design, RBAC authentication, database design, and data analysis with Pandas/NumPy. Holder of 12 industry certifications (Deloitte, IBM, British Airways, Intel, Adobe/UNICEF, Unstop, MindSeekers) and a selected participant of NEENV 2026 at IIT Roorkee's TIDES Incubator. Seeking an entry-level **Software Developer / Python Developer / AI-ML Engineer** role.

TECHNICAL SKILLS

Languages:	Python (OOP), C, SQL, JavaScript (Basics)
Backend & APIs:	FastAPI, REST API Design, Role-Based Access Control (RBAC), CRUD Operations, Postman
Frontend:	React.js (Basics), HTML5, CSS3
Databases:	MySQL, SQLite, Database Schema Design, Query Optimization
Data & AI/ML:	NumPy, Pandas, Matplotlib, Data Cleaning, Exploratory Data Analysis (EDA), Data Visualization
CS Fundamentals:	Data Structures & Algorithms, OOP, DBMS, SDLC, Agile Basics
Tools:	Git, GitHub, VS Code, Microsoft Office Suite, Google Workspace
Soft Skills:	Team Collaboration, Rapid Self-Learning, Analytical Problem-Solving, Communication (English & Hindi)

EXPERIENCE

AI Software Developer Intern 2025 – 2026
Aarsh AI Technologies *New Delhi, India*

- Engineered a production-ready, full-stack **AI Recruitment Portal** with dual-role dashboards (Recruiter & Candidate), job posting, resume upload, and real-time application tracking via REST APIs.
- Architected secure user authentication and **RBAC** with Python/FastAPI; designed and deployed REST API endpoints connecting the React.js frontend to MySQL/SQLite backend services.
- Led database schema design and CRUD operations; optimized queries; contributed across the full SDLC (requirements, design, development, QA, deployment).
- Collaborated via Git/GitHub (branching, pull requests, code reviews) to maintain production-level code quality.

PROJECTS

AI Recruitment Portal | *Python, FastAPI, React.js, MySQL, SQLite, REST API*

- **Problem:** Manual recruitment workflows are error-prone and inefficient at high application volumes. **Built:** Full-stack web app with RBAC auth, recruiter/candidate dashboards, job posting, resume upload, and API-driven tracking.
- **Role:** Sole backend developer; designed the API architecture and database schema and integrated the React frontend, delivering a scalable, production-grade system end to end.

Student Management System | *Python, MySQL* – Desktop app with full CRUD, secure login, record search/filter, and a normalized MySQL schema.

Data Analytics Pipeline | *Python, Pandas, NumPy, Matplotlib* – Data ingestion, cleaning, EDA, and automated visual reporting with charts and summary dashboards.

EDUCATION

Bachelor of Computer Applications (BCA) – AI & ML Specialization 2025 – 2028
Haridwar University *Uttarakhand, India*

Intermediate (12th, Maths), BSEB: 66% (2025) Matriculation (10th), BSEB: 73.9% (2023)

CERTIFICATIONS

- Deloitte Technology Job Simulation – Forage, 2026
- Deloitte Data Analytics Simulation – Forage, 2026
- British Airways Engineering Simulation – Forage, 2026
- IBM AI Fundamentals – Credly, Feb 2026
- IBM Career Management Essentials – Credly, Feb 2026
- Intel & Digital India – AI For All, Feb 2026
- Adobe & UNICEF – Design Fundamentals with AI (95%), Dec 2025
- Great Learning – C Programming for Beginners, Oct 2025
- Unstop – Data Analytics, 2026
- MindSeekers Technologies (MSME, Govt. of India) – Data Science, Certificate of Appreciation, Sep 2026

KEY ACHIEVEMENTS

- Secured an industry internship as a first-year BCA student and independently delivered a production-ready full-stack AI Recruitment Portal.
- Earned 12 industry certifications in Year 1 (95% in Adobe & UNICEF Design Fundamentals with AI); selected for NEENV 2026 at IIT Roorkee's TIDES Incubator and awarded a Certificate of Appreciation by Haridwar University.
